

EXPERT EDUCATION SEMINAR SCHEDULE

ALL CLASSES ARE BEING HELD AT: EXPERT OPTICS, INC., 305 EARL RD., SHOREWOOD, IL 60404

PLEASE CALL CHRISTINE KLEIN 815-741-1414 ext.131 TO SCHEDULE

BASIC LENSOMETRY

PLEASE BRING YOUR LENSOMETER Learn the basics of the Lensometer. Setting the lensometer for your eyes, positioning the glasses, sphere and cylinder, vertical imbalance between lenses, spotting PD's, etc.

Thursday, April 15, 2010 9:00 am - 11:00 am

LENSTOCK BASICS

Introduction to Lenstock. Lenstock is an in-office program that makes it easy to order, track shipments, restock, track usage, and control your inventory levels of your finished lenses. In addition, it can print any report you would need to make your edging lab more profitable.

Wednesday, April 21, 2010 9:00 am - 11:00 am

LENSTOCK INVENTORY

How long does it take you to count each lens in your inventory at tax time? Do you know the exact amount of money you have in inventory today? How many lenses are in your stock that you do not want to order again? How many times do you wonder if a certain lens comes in a higher power or cylinder? How many lenses are over stocked or stocked too lightly? The Lenstock program can tell you in a minute and keep the levels tailored to your office.

Wednesday, April 21, 2010 9:00 am - 11:00 am

UNDERSTANDING FREEFORMS

The future is now. We hear them but do we understand their lingo? Understanding the design of a lens enables you to pick the best design and material for your patient and increases your troubleshooting skills. This class is only for offices that want their patients to have the sharpest vision available in the industry today.

Wednesday, May 5, 2010 9:00 am - 11:00 am

INTERMEDIATE/ADVANCED LENSOMETRY

PLEASE BRING YOUR LENSOMETER Neutralizing prism, re-ordering one lens only, ANSI Standards, the way prism is put into glasses, etc.

Thursday, May 13, 2010 9:00 am - 11:00 am

DVI REMO

If you are concerned about turn-around, why are you waiting for a delivery service to pick up your Rx's? Ever wonder if a lens is available in a certain material or coating? Order Rx's within minutes. Available 24/7.

Wednesday, May 19, 2010 9:00 am - 11:00 am

VARIABLE FOCUS LENSES / TASK SPECIFIC LENSES / COMPUTER GLASSES

What is available and how to measure and fit them.

Wednesday, May 26, 2010 9:00 am - 11:00 am
